

CARTOON NETWORK GOOGLE DOODLE

The concept for my Google Doodle final project is to make it Cartoon Network themed, celebrating the impact that the channel has had on the animation world and entertainment as a whole. The google doodle itself includes characters/icons from Dexter's Laboratory, The Powerpuff Girls, Adventure Time, Courage the Cowardly Dog, Samurai Jack, and The Amazing World of Gumball.

For the animation aspect – unsure what to do for it, considering creating animating gifs separately (?)
